

RAHUL R

JUNIOR FULL STACK DEVELOPER

Building Scalable MERN Stack Web Applications with AI Integration

Nagercoil, Tamil Nadu, India | +91 9514701296 | rahul.r.devop@gmail.com

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

SUMMARY

Motivated Junior Full Stack Developer with hands-on experience building responsive web and mobile applications using the MERN Stack and Flutter. Skilled in REST API development, AI service integration, secure authentication, and cloud deployment. Strong problem-solver eager to contribute to innovative development teams.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS3, Dart

Frontend: React.js, HTML5, CSS3, Bootstrap, Material UI, Responsive Web Design, Axios, Framer Motion

Backend: Node.js, Express.js, REST APIs, JWT Authentication, bcryptjs, MVC Architecture

Mobile Development: Flutter, Dart, Material 3, REST API Integration

Database: MongoDB, MongoDB Atlas, Mongoose, Firebase, SQL

AI & API Integration: Groq AI, Gemini API, Prompt Engineering, REST API Integration

Cloud & Services: Cloudinary, Razorpay, Google Maps API, Weather API, Twilio, Nodemailer, WebRTC

Deployment & Version Control: Git, GitHub, Render, Vercel, Netlify

Tools: Visual Studio Code, Postman, MongoDB Compass, Firebase Console

INTERNSHIP EXPERIENCE

Full Stack & Flutter Developer Intern — AK Infopark Pvt. Ltd., Kanyakumari, Tamil Nadu Jul 2026 – Present

- Selected through a technical interview process for a Full Stack & Flutter Development internship.
- Developing responsive web and mobile applications using React.js, Node.js, Express.js, MongoDB, Flutter, and REST APIs.
- Building production-ready applications by implementing secure authentication, API integrations, cloud services, and modern UI/UX while collaborating with the development team.

IBM Cognos Analytics Intern — IBM SkillsBuild (Remote) 30-Day Internship

- Earned a 30-day remote internship through participation in an IBM Hackathon.
- Developed practical skills in IBM Cognos Analytics, business intelligence, dashboard creation, reporting, and data visualization.
- Applied analytical and reporting techniques to create interactive dashboards and derive meaningful business insights.

Python Development Intern — NIM Technologies, Nagercoil, Tamil Nadu Dec 2025 – Jan 2026

- Completed a Python Development internship focused on programming fundamentals and application development.
- Worked on Python programming, debugging, problem-solving, and basic software development concepts.
- Strengthened programming skills through hands-on coding exercises and real-world programming tasks.

PROJECTS

Learnixo — AI-Powered Learning Management System | React.js, Node.js, Express.js, MongoDB Atlas, JWT, Groq AI, Razorpay, Cloudinary, Material UI, Render

[GitHub](#) | [Live Demo](#)

- Developed a full-stack AI-powered Learning Management System (LMS) enabling students to browse, purchase, and access online courses through a responsive web application.
- Integrated Groq AI to build Nixo AI Tutor for instant doubt solving and AI-powered quiz generation, along with secure JWT authentication, Razorpay payment integration, and Cloudinary media management.
- Designed and deployed a scalable MERN application with role-based access control, responsive UI, and Android APK support for cross-platform accessibility.

AK Mini AI — AI Chatbot Web Application | React.js, Node.js, Express.js, MongoDB Atlas, Groq AI, JWT, Cloudinary, Render

[GitHub](#) | [Live Demo](#)

- Built an AI-powered web application that enables users to interact with an intelligent chatbot for real-time question answering and productivity tasks.

- Implemented secure user authentication, AI API integration, RESTful backend services, and a responsive React-based user interface for a seamless user experience.
- Developed and deployed the application using the MERN Stack with cloud-based hosting, focusing on clean architecture and scalable backend development.

Doc Mind AI — AI Document Analysis Platform | *React.js, Node.js, Express.js, MongoDB Atlas, Groq AI, Cloudinary, PDF Processing, Vercel*

[GitHub](#) | [Live Demo](#)

- Developed an AI-powered document analysis platform that allows users to upload documents and receive intelligent summaries and context-aware answers using AI.
- Implemented secure document upload, AI-powered content analysis, responsive UI, and RESTful backend services to improve document search and information retrieval.
- Built and deployed the application using the MERN Stack with cloud deployment, emphasizing performance, usability, and scalable application architecture.

EDUCATION

B.E., Computer Science and Engineering — *Vins Christian College of Engineering (Anna University)* Expected Jun 2027

CGPA: 8.5 / 10.0 | Department First Rank — 1st, 2nd & 3rd Year B.E. CSE

CERTIFICATIONS

IBM Cognos Analytics Certification — *IBM SkillsBuild*

- Completed training in IBM Cognos Analytics, covering business intelligence, dashboard creation, data visualization, and reporting.

Full Stack Web Development Internship Certificate — *AK Infopark Pvt. Ltd.*

- Practical training in Full Stack Web Development with hands-on experience in React.js, Node.js, Express.js, MongoDB, Flutter, and REST API development.

Python Development Internship Certificate — *NIM Technologies*

- Completed internship training in Python programming, problem-solving, and software development.

ACHIEVEMENTS

- Secured Department First Rank during the First, Second, and Third Year of the B.E. Computer Science and Engineering program.
- Selected through a technical interview process for a Full Stack & Flutter Development Internship at AK Infopark.
- Earned a 30-Day Remote Internship through participation in an IBM Hackathon organized by IBM SkillsBuild.
- Designed, developed, and deployed multiple AI-powered Full Stack and Flutter applications with live deployments and GitHub repositories.
- Demonstrated practical experience by building end-to-end applications integrating AI services, secure authentication, cloud storage, payment gateways, and REST APIs.

HACKATHONS & PARTICIPATION

- Participated in the IBM SkillsBuild Hackathon and earned a 30-Day Remote Internship based on performance.
- Participated in technical coding and innovation events, strengthening problem-solving, teamwork, and software development skills.
- Continuously engage in project-based learning by developing AI-powered, Full Stack, and Flutter applications to enhance practical software engineering experience.

SOFT SKILLS

Problem Solving • Communication Skills • Team Collaboration • Analytical Thinking • Adaptability • Quick Learning • Time Management • Attention to Detail

LANGUAGES

English — Professional Working Proficiency | Tamil — Native Proficiency
